

	INTEGRATED MANAGEMENT SYSTEM	T- SM-CA-16	
	BRIEFING - PREVENTION OF ENVIRONMENTAL CONTAMINATION	Date	07/04/21
		Version	01
		Page	1 of 1

Dear customers, suppliers and visitors:

To avoid contamination within the facilities of TAMA INGENIEROS S.A.C. due to oil and/or fluids spillage by transport units, machinery, or external equipment, the client/ supplier/ visitor with motorized vehicles must present upon entry (if applicable):

- Vehicle insurance in force.
- Valid technical vehicle inspection.
- Driver's license.
- Identification document (ID or passport).
- Vehicle ownership card.

In addition, the vehicle or equipment must have the corresponding preventive maintenance, as well as a tray and anti-spill kit, achieving to mitigate environmental impacts at all points where the vehicle or equipment transit and / or are located, caring for and raising awareness of the environment.

The vehicle or equipment that enters TAMA INGENIEROS S.A.C. for attention of products or services and causes oil spills and / or fluids, the minimum cost of penalty for such incidents will be \$ 50.00 + taxes, which will be subject to evaluation, the amount may vary and be higher, depending on the contaminated area and other factors. In case of being a repeat offender within one year (regardless of the vehicle, since the company name or legal entity is considered), the cost will be no less than \$150 + taxes or whatever is communicated according to the case.

A photographic report of the incident will be presented to support the charge to be made.

TAMA INGENIEROS S.A.C. thanks you for your collaboration!
